

Prepare. Respond. Recover.

MAPPING YOUR COMMUNITY RESOURCES

In an emergency, the resources in your neighborhood may be the only ones you have! Mapping the location and collecting up-to-date contact information for these resources is highly recommended.

Step 1: List critical resources in your community

The following is a list by category of the type of community resources that we recommend your organization map within your vicinity.

Step 2: Create a map

Once you have completed this worksheet, post a large, easy-to-read map of your neighborhood identifying these resources.

To fill out each table, place your cursor in each cell and start typing.

	Facility	Address	Telephone
Medical	Hospital Name		
	Medical Clinic Name		
	Pharmacy Name		
	Other Medical Facility		

	Services	Address	Telephone
Fire and Safety	Fire Station		
	Police Station		
	City Hall		
	Other		

	Resources	Address	Telephone
